Portfolio

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Angular, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT, Authentication

Databases: MongoDB, MySQL

Java: OOP, Collections, Exception Handling, JDBC

Tools: Git, GitHub, VS Code, IntelliJ IDEA

PROJECTS

EventEra – Event Booking Platform

Live

GitHub

React.js | Node.js | Express.js | MongoDB | Razorpay | JWT

- **Built and deployed** a full-stack MERN event booking platform supporting event discovery, event creation, ticket booking, and online payments.
- **Developed RESTful APIs** using Node.js and Express.js for user authentication, event management, bookings, and user operations.
- **Implemented secure authentication** using JWT, OTP-based email verification with Nodemailer, bcrypt password hashing, and protected routes.
- **Designed MongoDB schemas** for users, events, bookings, and authentication workflows to manage application data efficiently.
- **Integrated Razorpay** for online ticket payments and implemented backend payment verification for secure transaction processing.
- **Built responsive React.js interfaces** using Tailwind CSS, React Router, Axios, and reusable components for smooth navigation and user experience.

Hospital Management System

GitHub

Java | Java Swing | JDBC | MySQL | OOP

- **Built a Java Swing desktop application** for managing patients, doctors, appointments, and billing operations.
- **Applied Object-Oriented Programming principles** to organize application components and implement reusable Java classes.
- **Implemented the DAO pattern** to separate database operations from the application's user interface and business logic.
- **Integrated MySQL using JDBC** and implemented CRUD operations for patient, doctor, appointment, and billing records.
- **Used PreparedStatement** for parameterized SQL queries and safer database interaction.

EDUCATION

PVG's College of Engineering, Technology and Management, Pune

2023 – 2027

B.E. – Electronics & Telecommunication Engineering, Savitribai Phule Pune University

CGPA: 8.25/10

CODING & PROBLEM SOLVING

- **LeetCode:** Solved Data Structures & Algorithms problems with regular problem-solving practice.
- **Core CS:** Strong foundation in Object-Oriented Programming, DBMS, SQL, Java Collections, Exception Handling, database concepts, Operating Systems and Computer Networks.
- **Development:** Hands-on experience building applications involving frontend development, backend, authentication, database integration, and payment processing.
